The above-referenced protocol has been determined to be exempt from the federal policy as defined at *45 CFR 46 101(b) paragraph 2*. No further review is necessary unless modifications to the protocol related to human research subjects are proposed. Your study will remain active for a three-year period after which time it will be placed in the UCAIHS Offices' deactivated files.

This determination was made with the understanding that the proposed research only involves the following activities:

Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (i) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (ii) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation.

If you have any questions, please feel free to contact the UCAIHS office at 212-998-4808 or at [ask.humansubjects@nyu.edu](mailto:ask.humansubjects@nyu.edu).

We wish you success with your research.
